
Living with HIV, Dying of TB: A Critique of the Response of Global AIDS Donors to the Co-epidemic

understanding**Author:** ACTION

Publication Date: March 2009

Format: Report

Physical Description: 60 p.: col., ill.; graphs, refs., tables.

Language: English

Abstract:

In March 2009, ACTION released a report stating that donor-funded AIDS initiatives are failing to address staggering TB/HIV co-infection levels. Living with HIV, Dying of TB: A Critique of the Response of Global AIDS Donors to the Co-epidemic says that in some cases, institutions lack the means to even monitor whether funding was provided for TB/HIV efforts, let alone the efficacy of such investments.
