
Patient Education Materials Series

The culturally appropriate patient education materials cover six topics --TB disease, TB infection, tuberculin skin testing, TB contact investigation, TB and HIV coinfection, and TB medicine. The materials are available in English (low literacy), Spanish, and Tagalog languages. The Spanish and Tagalog versions include the English translations on the flip side of the publication.

## Series of Patient Education Materials

**Author:** CDC NCHHSTP Division of Tuberculosis Elimination understanding Global Tuberculosis Institute at Rutgers The State University of New Jersey

**Publication Date:** December 2005

**Country of Origin:** United States

**Format:** Booklet

**Physical Description:** Series includes 5 Booklets and 1 Fact Sheet

**Language:** English, Spanish, Tagalog

## Abstract:

The Centers for Disease Control and Prevention and the Northeastern New Jersey Medical School Global Tuberculosis Institute have produced a collection of culturally-appropriate patient education materials. These booklets and fact sheet were developed for a low-literate audience and cover the following topics: the TB skin test, TB and HIV, TB infection, TB disease, contact investigations, and TB medicine. These materials are available in English, Spanish, and Tagalog.
