

## Electronic Recording and Reporting for Tuberculosis Care and Control

33734 **Author:** World Health Organization

**Publication Date:** 2012

**Format:** Book

**Physical Description:** 88p.: mono., ill.; annex, tables.

**Language:** English

### Abstract:

Adopting electronic recording and reporting is not simply about choosing a piece of software: it is also about changing how people work. This is not a simple undertaking. This document introduces the key questions to be considered and illustrates what the questions, options and recommendations mean in practice by drawing on examples of recent experience from a variety of countries. It is an essential resource for all those planning to introduce electronic recording and reporting systems for TB care and control, or to enhance existing systems.
