

Human Resources for Health (HRH) Action Framework Website

Author: The Capacity Project Global Health Workforce Alliance

Publication Date: 2007

Country of Origin: United States

Format: Online Resource

Physical Description: Website

Language: English

Abstract:

The HRH Action Framework was designed to assist governments and health managers in developing and implementing strategies to achieve an effective and sustainable health workforce. By using a comprehensive approach, the Framework can help address staff shortages, uneven distribution of staff, gaps in skills and competencies, low retention and poor motivation, among other challenges. This website is an initiative of the Global Health Workforce Alliance (GHWA) and represents a collaborative effort between the U.S. Agency for International Development (USAID) and the World Health Organization (WHO). The Capacity Project is the website administrator.
