

Ten Against TB (TATB)

Author: Texas Department of State Health Services

Publication Date: 1995

Country of Origin: United States

Format: Online Resource

Physical Description: 1 website.

Language: English, Spanish

Abstract:

Ten Against TB is a binational initiative created by the health officers of the ten U.S.-Mexico border states during the June 1995 annual meeting of the U.S.-Mexico Border Health Association (USMBHA) held in San Diego, California. The goal of TATB is "to identify and address the opportunities and challenges that cannot be addressed unilaterally by either country acting alone". TATB facilitates binational cooperative efforts along the U.S.-Mexico border to reduce tuberculosis morbidity, mortality, and transmission by strengthening prevention and control programs.
