

Implementation of Routine HIV Testing in Health Care Settings: Issues for Community Health Centers

understanding **Author:** CDC Division of HIV/AIDS Prevention.

Publication Date: January 2011

Format: Guideline

Physical Description: 16 p.: col., ill.; refs.

Language: English

Abstract:

Community health centers (CHCs) are important facilities which implement routine HIV testing consistent with the 2006 recommendations issued by the Centers for Disease Control and Prevention (CDC). This document provides an overview of general protocol elements for facility-based HIV testing and post-test counseling.
